Location: Riyadh, Saudi Arabia
Phone: +966 54 920 0217
Email: moazg783@gmail.com

PROFILE

Full-Stack Developer who builds complete, production-ready web apps with Next.js, React and Node.js: responsive interfaces, secure REST APIs, databases and deployment. 2+ years of hands-on experience, including team projects as part of the Microsoft Student Partners (MSP) community and client work in Egypt and Saudi Arabia. Open to remote, freelance and full-time Full-Stack roles.

WORK EXPERIENCE

Full-Stack Developer 2025 - Present
Freelance & Personal Projects

- Build complete web apps end to end with Next.js, React and Node.js (Express): UI, REST APIs, authentication and deployment.
- Work with MongoDB, PostgreSQL and Firebase to design data models and handle real-world application data.
- Deliver fast, responsive, SEO-friendly products with clean, reusable, maintainable code.

Freelance Front-End Developer 2024 - 2025
Freelance Clients, Saudi Arabia

- Worked independently on real-world projects for clients, mainly from Saudi Arabia. Delivered responsive and user-friendly websites using modern front-end technologies.
- Kept growing through self-learning, exploring new tools and frameworks, and improving UI/UX design practices.

Front-End Developer Jan 2023 - Jan 2024
Microsoft Student Partners (MSP)

- Completed a hands-on front-end development internship at MSP, collaborating on real-world projects and delivering practical solutions.
- Enhanced my technical expertise through advanced courses and workshops, and gained professional experience in team-based agile workflows.

Front-End Developer Jan 2022 - 2023
Self-Learning & Freelance

- Focused on learning front-end development through practical, hands-on projects.
- Built multiple responsive websites using HTML, CSS, JavaScript and Bootstrap.

EDUCATION

Master of Business Management
Al-Azhar University - Faculty of Education (English Department)
Cairo, Egypt | Expected Graduation: 2027
